

14th Elementary School Pilsen

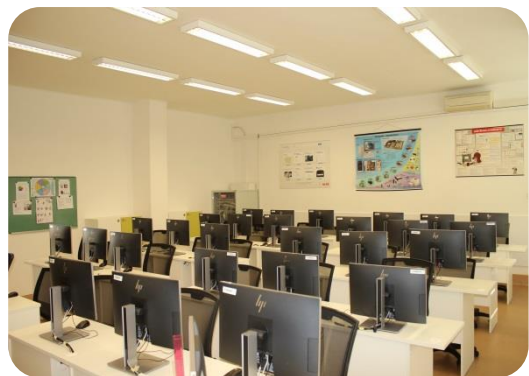

The 14th Elementary School Pilsen is located in the west of the Czech Republic, in the city part Doubravka. It was founded in the year 1974 and has had its legal subjectivity since 1999. The whole area of the school is in a pleasant and quiet environment of the Doubravka housing estate not far from Chlum.

The school has the capacity of 650 students. Teaching is led by qualified teachers. High standards of education process are guaranteed thanks to the lifelong education and training of the teachers. They create a pleasant environment and provide individual approach for the children.

Both students and teachers have the opportunity to use all sorts of modern technology. Available are iPads, classes with interactive boards, computers and LCD panel.

In the year 2018 a new and renovated outside playground was opened. It contributes to amazing conditions for sport. They also have a lot of free time activities they can choose from. They can participate in sport, environmental or language courses.

Within long-term cooperation with partner schools we have participated in various projects and workshops. The 14th elementary school cooperates with two partner schools. Our partnership with Základní škola, Namestie Mladosti 1, Žilina (SK) started in 2009. Since the year 2016 we have worked together with Willi – Ulfing - Mittelschule Regensburg (D). Since the beginning of our partnerships we have carried out many reciprocal visits, shows and projects.

Our biggest objective is to form strong and independent pupils who will be able to face obstacles in a creative, responsible, polite and successful way.
